Handbells Used: 5-6 (7) Octaves

A musical score for handbells. It consists of two staves: a treble staff and a bass staff. The music is written in common time. The treble staff has a key signature of one sharp (F#). The bass staff has a key signature of one sharp (F#). The score includes various note heads and rests, some with accidentals like flats and sharps. A bracket above the notes indicates an optional section labeled "opt.". Below the staff, there is explanatory text: "5 octaves ~ omit notes in < >" and "6 octaves ~ omit notes in { }".

Handchimes Used: 4 Octaves (*opt. A2*)

A musical score for handchimes. It features two staves: a treble staff and a bass staff. The music is in common time. The treble staff has a key signature of one sharp (F#). The bass staff has a key signature of one sharp (F#). The score consists of diamond-shaped note heads connected by vertical stems. A bracket above the notes indicates an optional section labeled "opt.".

Alternate Bells - 3 octaves ~ Pitches Used

A musical score for alternate bells. It shows two staves: a treble staff and a bass staff. The music is in common time. The treble staff has a key signature of one sharp (F#). The bass staff has a key signature of one sharp (F#). The score uses square note heads. A bracket above the notes indicates an optional section labeled "opt.".

Performance Note  
to order this item.

\* Bass ostinato chimes in mm. 1-16 may be played with a half-damp technique, covering the bottom third of the open U-shaped tuning slot with one's finger(s). Experiment until the right amount of pressure and coverage is reached to balance between a full, rich eighth note and a staccato note, which is too short. In the absence of chimes, bass chime notes in mm. 1-16 should be played with soft mallets on handbells.

---

**bUmPInG nOSeS** was inspired by the "sad clown" traditionally known as Pierrot in circus lore. Most typically dressed in black and white, Pierrot is forever the clown with a glum outlook and a frown on his face (indicated by the opening motif), until he finds a friend!

The title of the piece comes from "circus-speak." As with stage actors, clowns believe it to be BAD luck to wish someone "good luck." Rather than the theatrical "break a leg," clowns more often bid each other good fortune with the phrases "knock 'em dead" or, more endearingly, "bump a nose."

So ... enjoy, and *bump a nose* !

\* Continue ringing chimes in the same manner as the beginning of the piece. (5-octave choirs, mallet an A3 bell AND ring the A3 chime in mm. 12 and 13.) Lower bells should be played gently with soft mallets to achieve a muffled tone, yet one which still produces accurate tone. To aid in this, and for true circus fun later, the bass bells may be filled with VERY long, brightly colored silk scarves, which may be pulled out later, either by the conductor or the ringers themselves. Remember the last time you pulled a handkerchief from a clown's pocket?

Musical score for orchestra, page 3. The score consists of six staves:

- HB (Horn B)**: Treble clef, key signature of four sharps. Measures 13-15 show eighth-note patterns.
- Picc. (Piccolo)**: Treble clef, key signature of four sharps. Measures 13-15 show eighth-note patterns.
- B♭ Cl. (B-flat Clarinet)**: Treble clef, key signature of four sharps. Measures 13-15 show eighth-note patterns.
- HB (Horn B)**: Treble clef, key signature of four sharps. Measures 16-18 show eighth-note patterns. Dynamics: *mf*, *mf*, *mp*.
- Picc. (Piccolo)**: Treble clef, key signature of four sharps. Measures 16-18 show eighth-note patterns. Dynamics: *mf*, *mf*, *mp*.
- B♭ Cl. (B-flat Clarinet)**: Treble clef, key signature of four sharps. Measures 16-18 show eighth-note patterns. Dynamics: *mf*, *mf*, *mp*.

\* In the absence of an A2 chime, a suspended A2 bell may be played with a soft mallet. Otherwise, an A3 chime is preferred.

\*\* Measures 22-28 are the ideal time for the "clown scarves" to be removed from low bass bells. If necessary, slightly harder mallets may be required in measure 21 in order to achieve the proper dynamic level with the fabric still inside.

\* If available, the alto line and inner melody in mm. 27-32 (scored with square noteheads) may be played on bells with a different timbre and/or tuning (such as Petit & Fritsen bells) in order to achieve a slightly obnoxious, "out-of-tune" quality.

\*\* In the absence of an A2 chime, a suspended A2 bell may be played with a soft mallet in measures 29 and 31. Otherwise, the A2 note should simply be omitted.

Cat. 20216-M

This page contains musical notation for four staves: Horn (HB), Piccolo (Picc.), Bassoon (B♭ Cl.), and Horn (HB). The music is numbered 88 through 93. Measure 88 starts with a dynamic R. Measures 89 and 90 show various rhythmic patterns with dynamics like 'v' and 'u'. Measures 91, 92, and 93 feature sixteenth-note patterns with dynamics 'ff' and '(R)'. The Piccolo staff has a prominent sixteenth-note pattern in measure 91. The Bassoon staff has a sustained note in measure 91. The Horn staff has a sustained note in measure 92. The Piccolo staff has a sustained note in measure 93. The Bassoon staff has a sustained note in measure 93. There are also several grace notes and slurs throughout the piece. A large, stylized yellow star with a face and arms is positioned centrally over the score, holding a musical note. Text overlays 'Copyrighted material.' and 'Please return to our store to order this item.' are present, along with a catalog number 'Cat. 20216-M' at the bottom right.
