* Echo ring: Ring on the beat indicated and lightly touch the rim to the padded table on the counts indicated.

** Vib. = vibrato: This is especially desirable if using handchimes. Ring the handchime and lightly and quickly touch the lowest portion of the tone slot with the index finger. For handbells, ring the handbell and move it from side to side using the wrist, not the arm, to produce the wavering sound. Do not move the handbell back and forth as in a shake.
